PROFILE

Motivated Computer Science graduate specializing in Full-Stack Web Development, skilled in building responsive, user-friendly web applications with HTML, CSS, SCSS, and JavaScript across modern front-end frameworks, as well as designing and documenting back-end APIs with Node.js and Express.js. Strong foundation in software engineering principles, UI/UX design, database management, and cross-browser compatibility, with a proven ability to collaborate across teams to deliver engaging digital experiences.

SKILLS & COMPETENCIES

Languages & Markup: Java, C++, PHP, SQL, JavaScript, HTML, CSS, SCSS

Frameworks & Libraries: Laravel, React, Node.js, Express.js, jQuery, Bootstrap

Tools & Platforms: Git/GitHub, Docker, VS Code, Chrome DevTools, Postman, Trello, MongoDB, Vercel

Core Strengths: Full-Stack Development, Back-End API Design, Responsive & Cross-Browser Design, UI/UX Implementation, Debugging, OOP, Database Management, Team Collaboration, Problem-Solving, Time Management

PROJECT EXPERIENCE

E-Commerce API Documentation — Personal Project

- Built a dynamic e-commerce workflow management system with dynamic routes for order processing, real-time inventory updates, secure user authentication, automated order reporting, and product management.
- Documented and published the back-end API publicly using Postman.

Course Booking API Documentation — Personal Project

- Developed a RESTful API for managing course enrollments, including user registration, authentication, and retrieval of user details.
- Built endpoints supporting course creation, updates, archiving, activation, and student enrollment.
- Publicly documented the API using Postman for ease of integration and testing.

Course Booking App — Personal Project

- Built a MERN-stack course enrollment system featuring user registration, authentication, and profile management.
- Enabled authenticated users to create, update, archive, and activate courses, plus browse and enroll in available courses seamlessly.

PROFESSIONAL EXPERIENCE

Customer Service Expert — Teleperformance (Starbucks Account)

Nov 2025 – Apr 2026

- Delivered front-line customer support across a high-volume queue, strengthening communication and conflict-resolution skills in a fast-paced environment.
- Resolved escalated customer concerns professionally, contributing to consistent adherence to quality and customer satisfaction targets.
- Built strong multitasking, adaptability, and time-management skills while handling concurrent customer interactions under performance metrics.

Front-End Developer Intern — Make Technology

Sep 2021 – Mar 2022

- Developed responsive, dynamic front-end features for a voting platform using Laravel and SCSS.
- Improved UI/UX design and cross-browser compatibility for the Cyberzone website, boosting usability and accessibility.
- Identified and fixed UI bugs on the Aboitiz website, enhancing performance and overall customer experience.
- Collaborated with cross-functional teams to deliver visually engaging, functional interfaces.

EDUCATION

Zuitt Coding Bootcamp

Apr 2026 – September 2026

Software Engineering Training Program

iACADEMY

2018 – 2023

Bachelor of Science in Computer Science, Major in Software Engineering

Dean's List (First Honors), 2020 – 2021

De La Salle Lipa

2016 – 2018

Senior High School, Accountancy, Business and Management (ABM)
